

Accessibility Policy

Aim

It is the overall aim at Southborough High School to do all that is reasonably possible to ensure that the school's facilities, services, culture, policies and procedures are made accessible to pupils, staff members and visitors who have disabilities and to comply with our moral and legal responsibilities under the Equality Act (2010).

NB: A person is defined as having a disability if they have a physical or mental impairment, which has a "substantial and long-term adverse effect" on their ability to carry out normal day-to-day activity (Equality Act 2010).

Access to School

Dedicated disabled parking bays are allocated in the front car park, with access available through the front entrance.

Access between each floor is by a main lift. The outside of the school has ramps fitted around the school.

The school has disabled toilets on two floors.

Admissions

Parents/guardians of prospective pupils must notify the school of any disabilities in advance of registration and must discuss with the school what adjustments could reasonably be made to accommodate their child. The school may request a full report from a doctor or educational psychologist to help determine whether it can properly fulfil its legal and moral responsibilities to the child and its contractual duties to the parents/guardians.

In particular, the school will do all it reasonably can to ensure that the child can, with reasonable adjustments, access the curriculum, whether in the classroom or through other means. The school also expects all of its pupils to participate in sports, music, drama, trips and expeditions as part of its ethos of inclusiveness, but must ensure that no pupil's education or safety is put at risk by the needs of another individual.

Existing Pupils

The school recognises that medical and psychological conditions can develop in existing pupils which may require adjustments to be made to the way in which the curriculum is delivered. 2

Parents/guardians must, as soon as possible, disclose to the school in confidence any known medical condition, health problem or allergy affecting an existing pupil. Where appropriate, the Head Teacher shall set up a consultation process so that interim measures can be put in place to support the pupil, and that longer term requirements may be determined. The school will, to the best of its ability, make such adjustments as are reasonably practicable to allow a pupil to continue at the school.

Learning Difficulties

The school shall do all that is reasonably possible to detect and deal appropriately with a learning difficulty, which amounts to a "special educational need". The school staff are not, however, qualified to make a diagnosis of specific learning difficulties such as dyslexia, dyspraxia, or other learning difficulties. The screening tests available to schools are indicative only; they are not infallible. Parents/guardians will be notified if a screening test indicates that a pupil may have a learning difficulty. It will be the responsibility of the parent/guardian to arrange any formal assessments; the school can help with this process by recommending specialist help.

Prospective Staff Members

Prospective staff members must notify the school of any disabilities as part of their application and must discuss with the school what adjustments could reasonably be made to accommodate them should they be employed. The school may request a full report from a doctor to help determine whether it can properly fulfil its legal, moral and contractual responsibilities to the prospective staff member, its pupils and their parents/guardians.

Existing Staff Members

The school recognises that medical and psychological conditions can develop in existing staff members which may require adjustments to be made to the way in which they are employed.

Existing staff members must, as soon as possible, disclose to the school in confidence any known medical condition or health problem. Where appropriate, the Head Teacher shall set up a consultation process so that interim measures can be put in place to support the staff member, and that longer term requirements may be determined. The school will, to the best of its ability, make such adjustments as are reasonably practicable to allow a staff member to continue at the school.

Reasonable Adjustments

The school shall endeavour to make reasonable adjustments to aid a prospective or existing pupil/staff member. Such adjustments may include (but not limited to):

- Installing low gradient ramps for easy access on the ground floor;
- Allocating a classroom on the ground floor;
- Specialist seating or any other relevant classroom resources or equipment.

In defining what is reasonable, the school shall take into account: 3

The cost and feasibility of making specific alterations to the school premises;
 Implications on financial resources and the likelihood of any external funding being available to offset this;

Staffing requirements;

Health and safety considerations;

The interests of pupils, staff and visitors.

Personal Information

All personal information provided to the school regarding a pupil or staff member's disabilities shall be treated in strictest confidence and only used in accordance with the Data Protection Act (1998).

Policy Review

This policy will be reviewed in full by the governors Committee every 2 years.

This policy was last reviewed and agreed by governors as below:

September 2022

It is due for review 24 months from the above date
